Marketplace App by Rushil

Outline of the problem

- No dedicated websites for exotics, tuners and classics
- The cost can vary depending the value of your car
- Visibility of your ad

Why is it a problem that needs solving?

- All car enthusiast will have a dedicated website to jump onto to find only the best exotics, tuners, classics and potentially their dream car
- Having that visibility only dedicated to such cars, gives it a higher chance of selling it as well as selling it to people who know what they are after
- Making it easy to list and sell within 2 minutes after sign up and most importantly affordable
